Dear Maggie,

I am the executive assistant to Commissioner Susan Bitter Smith. I am responding to you at the direction of Commissioner Bitter Smith. We received the email you sent, and take your concerns very seriously. Thank you for taking the time to send a message about your concerns about Smart meters. Your comment will be made a part of the public comment record and visible by all parties of interest.

New smart meters are going up in Bisbee, AZ.

Did I ask for them to be installed ? No, but you, the  
AZ Corporate Commission have decided

**that I do not have an option in getting this put on  
my property except if  
I want to pay an extra \$120 per month !**

I just called APS, and they want to charge me \$30 per meter if  
I do not let them make these changes... that means I might end  
up paying them \$120 more per month, because I have four  
meters on my property.

**Have you researched the avalanche  
of negative physical effects that come  
from living next to these new meters ?**

Please read the complaints listed  
on this site....

[http://emfsafetynetwork.org/?page  
id=2292](http://emfsafetynetwork.org/?page_id=2292)

I have a belief that Big Business....( large corporations) will put forth new technology without truly studying all the negative impacts that they have on our bodies and our planet. Like fluoride added to our water, or a nuclear power planet or the war in Iraq ... These are Very Bad Ideas! Ideas that I personally had no input on! So this a good place to start saying "NO" !!!!!

I am concerned about the long term health affects of these new meters. You might want to look at this site  
[http://emfsafetynetwork.org/?page\\_id=2292](http://emfsafetynetwork.org/?page_id=2292) for more information.

Please respond to this email and let us work out some options to having these put up in every property without the acceptance of the customers to APS. For example: medical waivers.... or personal reporting instead of making an APS employee come to my property every month. There must be other options... if we truly live in a free country.

Utility companies are a monopoly... so as the watch dog for citizen's rights the AZ Corporate Commission needs to defend the rights of the Utility customer.
